SUPERIOR SATIN SEALER TECHNICAL APPLICATION GUIDE

DESCRIPTION

PROTECTIVE TOP COAT GLOSS SEALER

- Excellent on slate, terracotta and natural stone
- For rough and absorbent surfaces
- Enhances natural colours
- Use indoors or outdoors

Superior Satin Sealer is a water-based gloss finish top coat protective sealer that creates a durable, crystal clear gloss finish. Suitable for internal and external use on slate, terracotta, quarry and Victorian tiles, brick pavers, sandstone and many more textured stone or masonry surfaces.

Superior Satin Sealer is quick drying and easy to apply and will protect the applied surface against oil and water-based stains. **Not recommended for use on highly polished stone & ceramic glazed surfaces.**

DIRECTIONS FOR USE

- 1) Before application make sure the surface is completely dry, clean and free from debris.
- 2) Apply the product thinly and evenly with a low pressure sprayer and micro-fibre mop, paint brush or soft cloth, taking care not to leave application marks or allowing the product to puddle on the surface.
- 3) Allow 45-60 minutes drying time before applying the second coat, repeating the same process apply the product in the opposite direction to help to achieve an even consistent finish. If necessary more coats can be applied to achieve the desired finish.

Please Note: Surfaces which are not to be sealed must be protected with masking material. Always test product in an inconspicuous area to determine suitability for intended use.

MAINTENANCE

Clean treated areas with **Superior Tile & Stone Cleaner**, do not use harsh or abrasive cleaning agents as this can have a negative effect on the treated surface.

COVERAGE

Up to 25m² per litre

Depending on texture and porosity of surface.

USAGE GUIDELINES

Drying Time	Applications/ Coats	Application Method	Dilution
45-60 mins	1-3 coats	Mop/Brush/ Sprayer/ Cloth	Undiluted
